OTTAWA CANADA

THE GREAT CHEAP POWER CITY

POPULATION
90.000

INC. SUBURBS
115.000

The City of Ottawa

ADVANTAGEOUS MANUFACTURING AND DISTRIBUTING CENTRE

Offers economic and advantageous facilities for the successful operation of nearly every kind of industry:—

The cheapest power, most favorable labour conditions in Canada and comparatively low cost of living.

Various raw materials in the CITY LIMITS and within easy access.

Splendid industrial sites with fixed assessment for a period of twenty years; some at a nominal rental with power on premises.

Requisite transportation facilities—rail and water.

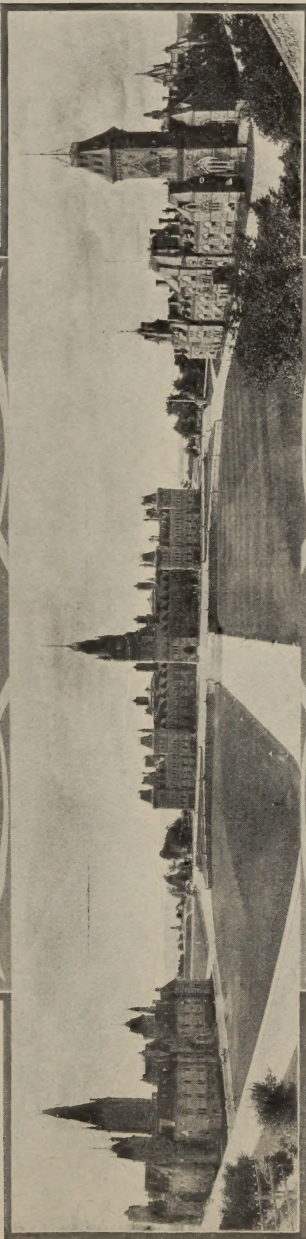

Advantageous freight rates in some cases.

Equitable freight rates in all other directions.

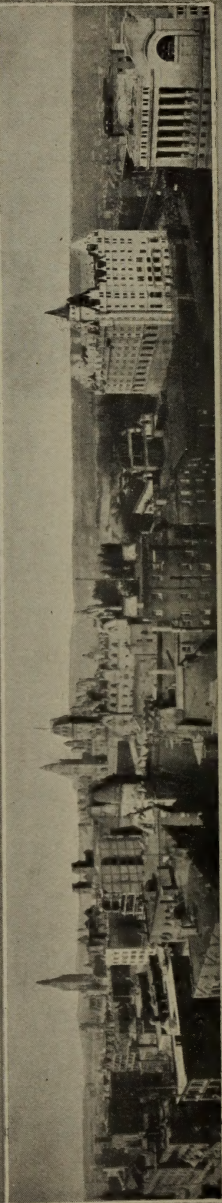

And the centre of a population approximating 4,100,000—half of the population of the Dominion of Canada—within a radius of 300 miles of the City of Ottawa, together with the greatest growing markets of Western Canada which are reached more directly from Ottawa than any other manufacturing centre in Canada.

OTTAWA, CANADA.—SPARKS ST., NEAR ELGIN.

OTTAWA.

OTTAWA is a city of magnificent homes and mammoth industries.

OTTAWA holds annually the greatest Ice Horse Race Meet in the world.

OTTAWA offers power and labor on more favorable terms than any other town or city in Canada.

OTTAWA enjoys a delightfully healthful climate, spring, summer, autumn, and winter.

OTTAWA sets the pace for the whole Dominion socially and leads the world in athletic sports.

OTTAWA has an abundant supply of good soft water, and a perfect drainage system. Annual consumption of water 5,548,138,300 gallons.

OTTAWA is in close proximity, and provides easy access to some of the finest fishing and game resorts on the continent of North America.

OTTAWA has water connection with the Great Lakes and Atlantic Ocean, via the Rideau Canal, Ottawa and St. Lawrence Rivers.

OTTAWA is on the three transcontinental railways—Grand Trunk, Canadian Pacific, and Canadian Northern, and is the terminus of the Canadian branch of the New York Central Railway.

OTTAWA industries give employment to 14,000 people and pay in wages annually about \$7,978,000.00. Manufactures, 1910, estimated at \$37,700,000.00.

The Federal Government employ 3,596 people at Ottawa with an annual payroll of \$4,638,900.00. Fifteen Government Buildings valued at \$19,750,000.

OTTAWA is the largest manufacturer of lumber in the world, and has the largest individual factories in the world producing paper, marine signals, cement and tents.

OTTAWA has several highly efficient volunteer militia corps—cavalry, artillery and infantry. The annual shoot of the Dominion Rifle Association is held here.

OTTAWA is second to none in transportation facilities. Ten steam roads enter the City, and three or four others are under survey or construction. Over 100 trains come and go daily.

OTTAWA has splendid factory sites available—250 acres of land at a fixed assessment of \$75.00 per acre, for a period of 20 years, and approximately 400 acres assessed at \$125.00 per acre.

OTTAWA has a university, a normal school, a collegiate institute, three up-to-date business colleges and fifty-four other private and public schools and colleges. An average of 10,965 pupils attend the public schools daily.

OTTAWA is on the route of the projected Georgian Bay Canal, and will share to the fullest possible extent in the enormous volume of trade and commerce which the Georgian Bay Canal is certain to develop, also divert from present United States channels to Canadian channels.

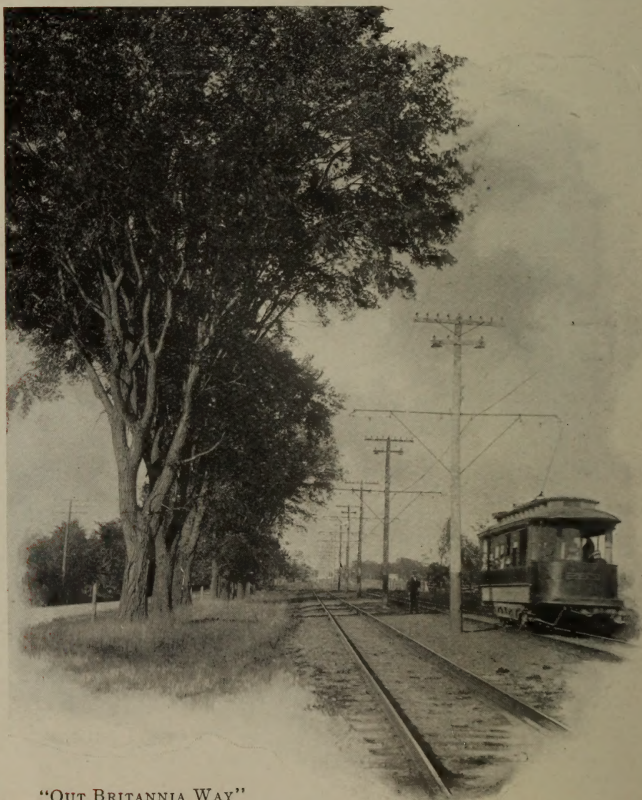

OTTAWA is abundantly provided with beautiful parks, picturesque driveways, shady avenues and splendid boulevards. Ottawa has the finest driveway on the Continent, upon which the Ottawa Improvement Commission is spending \$1,000,000 on extensions and beautifying.

There are 237 acres park lands in the City Limits and approximately 2,000 acres of park lands adjoining the city.

OTTAWA street car system provides the most efficient service of any street railway in Canada. The cars are clean, comfortable and swift, the employees neat, courteous and obliging. The traffic has grown from 10,000,000 in 1905 to 17,000,000 during 1910.

OTTAWA is on the main line of the Canadian Pacific Railway, Grand Trunk, Canadian Northern, and branch line of the New York Central Railway, and all trains from the Atlantic to the Pacific or from the Pacific to the Atlantic, by the shortest route, pass through this city.

OTTAWA has the National Victoria Museum, Government Archives, National Art Gallery, Central Experimental Farm, Royal Observatory, Government Fisheries Exhibit, Parliamentary and Public City Libraries, Royal Mint, and, with the possible exception of one, the best Annual Agricultural and Industrial Exhibition, Fat Stock, Horse and Poultry Shows in Canada.

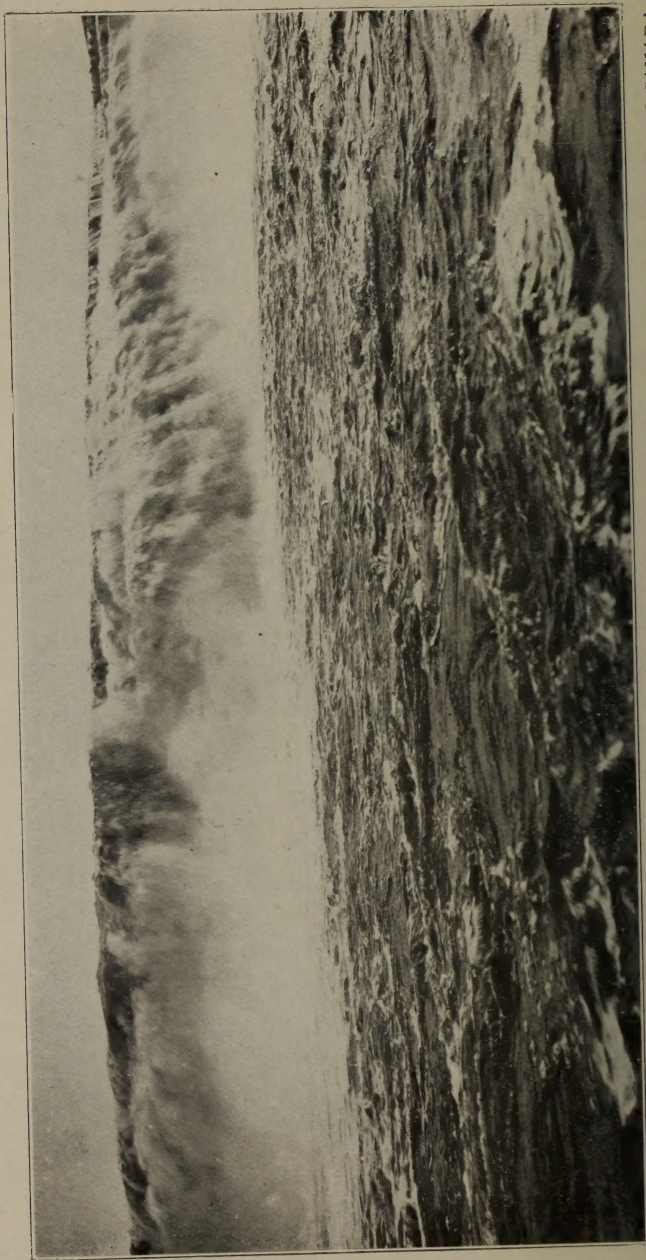

"OUT BRITANNIA WAY"

OPPORTUNITIES FOR THE CAPITALIST AND MANUFACTURER.

OTTAWA presents many glowing opportunities at the present time for the establishment of various industries, particularly for the manufacture of AUTOMOBILES, BOXES, BAGS, BISCUITS, BOTTLES, BARRELS, CLOTHING, CIGARS, CEREAL FOODS, CONFECTIONS, COMMERCIAL MOTOR CARS, ELEVATOR AND MILL BUILDING MACHINERY AND MATERIALS, FURNITURE, FLOUR, GLOVES, OATMEAL, PAPER WARES, PAPER, POTTERY, ROLLER MILLS PRODUCTS, RUBBER AND FELT GOODS, SHIRTS, AND COLLARS, SHOES, TILES, TEXTILES, WOODEN-WARES.

SPECIAL REPORTS WILL BE FURNISHED PROMPTLY ON ANY OF THE ABOVE LINES OF INDUSTRY.

PROMPT ATTENTION WILL BE GIVEN TO ANY REQUESTS FOR INFORMATION CONCERNING ANY LINE OF INDUSTRY OR OTHER SUBJECTS.

CHAUDIERE FALLS, INSIDE CITY LIMITS, OTTAWA, CANADA.—THE REASON FOR THE CHEAPEST POWER IN CANADA.

ADVANTAGEOUS AND ECONOMIC FACILITIES FOR MANUFACTURING AND DISTRIBUTING.

OTTAWA holds out advantageous and economic facilities for the successful and profitable operation of industries of nearly every character.

RAW MATERIALS

for woodworking, paper, and kindred industries are available in the City Limits and within easy access. Timber and raw materials abound throughout the district, such as bass wood, ash, beech, elm, cedar, maple, white pine, red pine, hemlock, birch, poplar, granite, marble, limestone, brick, tile and pottery clay, marl, iron, magnesite, mica, phosphate, barite, corundum, peat. Pure soft, cold water. Excellent transportation facilities and favourable freight rates, to lay down other materials.

CHEAP POWER.

OTTAWA provides an abundance of cheap electric power, approximately 73,000 horse-power, hydro-electric has been developed and is being utilized, and 27,000 horse-power is available within the City Limits; 589,320 horse-power available above the City; 269,680 horse-power available below the city, capable of development (this estimate based on minimum annual flow of water undeveloped), giving the City of Ottawa and the district comprising a radius of 30 miles of the City Hall, a total of 959,000 horse-power for commercial purposes, **OR MORE THAN TWICE THE AMOUNT OF POWER AVAILABLE FOR COMMERCIAL PURPOSES AT NIAGARA FALLS.**

LABOUR.

It is indisputable that most favorable labour conditions prevail in Ottawa. Nearly every class of labour is available, especially efficient female help. Ottawa's 168 factories employ 14,000 people. Ottawa labour is adequate, efficient, prosperous and contented.

TRANSPORTATION FACILITIES.

Railways:—Canadian Pacific, Grand Trunk, Canadian Northern, and New York Central line.

Water carriers via Rideau Canal, to Great Lakes and the Ottawa River and St. Lawrence River to the Great Lakes, Montreal and Atlantic seaboard.

FREIGHT RATES.

Freight rates from Ottawa to the Western markets of Canada are identically the same, per class, per cwt., as rates from Toronto, Hamilton, London, Berlin, Welland, Kingston and other industrial centres of Ontario, and with the advantage of from one-half to two days' quicker service from Ottawa by reason of direct haul, without transshipment, as is necessary from points not on the main line of these railway systems. (Look at the map of Canada). On export and Eastbound traffic, Ottawa, of course, has the advantage of both rates and time over all other Ontario and Western cities by reason of location, direct lines and transportation facilities to and from the United States and the Atlantic seaboard.

INDUSTRIAL SITES.

Splendid industrial sites with trackage connecting the only three transcontinental railway lines—Canadian Pacific, Grand Trunk, and Canadian Northern—and the New York Central lines, are available in addition to other suitable, convenient, and comparatively cheap sites. Many particularly suitable industrial sites comprising a large acreage of land within the City Limits at a fixed assessment for 20 years are still awaiting occupancy with a variety of labour available in the locality.

Some excellent sites are available at a nominal rental, with power on the premises.

OTTAWA A MODEL HOME CITY.

Notwithstanding that some of the largest industries in the world are in full blast in Ottawa, and many other important industries are running night and day at the present time, the City of Ottawa is a most cleanly, picturesque, charming and healthful home city. It is particularly a city of magnificent architecture. The Parliamentary Buildings and other Government and public buildings and a large number of private homes constructed of splendid native stone and brick are elaborate and striking in architectural design, and in the appointment of beautiful grounds.

The *Manufacturer* and the *Capitalist* enjoy the advantages and benefits of the social centre of the Dominion of Canada.

The *Workingman* finds conditions most congenial,—houses in good repair are rented at from \$7.00 to \$20.00 per month, and the cost of living in Ottawa compares most favorably with any other manufacturing centre in Canada.

The City occupies a striking position on high cliffs overlooking the Ottawa River, and commands a view of varied scenery combining mountain, river and vale, indescribable for beauty and grandeur. The Laurentian chain to the north, to the east and west the Ottawa and Rideau Rivers, and Rideau Canal, Rideau River emptying into the former over most beautiful twin falls within the City Limits. The streets are broad and clean and lined with heavily foliated shade trees. The climate is all that can possibly be desired in a temperate zone.

Efficient, comfortable, clean and rapid electric railway cars provide adequate service at low rates to Hull, Aylmer, Britannia and other delightful suburban districts.

OTTAWA PROVIDES THE BEST HOTEL SERVICE OF ANY
CANADIAN CITY.

OTTAWA, CANADA—PARLIAMENT HILL, FROM INTERPROVINCIAL BRIDGE.

A CONVENTION CITY.

OTTAWA has long since acquired the title of "CONVENTION CITY." More Conventions of various kinds are held annually in the City of Ottawa than any other city or place in the Dominion of Canada. This is easily understood when it is known that the City of Ottawa provides every comfort, convenience, and pleasure for delegations. All the principal railways of the Dominion centre here, the hotels provide happily, at reasonable cost, for the Individual, and many suitable buildings are available for meetings. Numerous delightful little side trips are possible during recesses, contributing the interesting, the picturesque and the grand.

(See map, back cover).

THE PUBLICITY AND INDUSTRIAL BUREAU, CITY OF OTTAWA, WILL GLADLY RENDER WHAT-EVER SERVICES POSSIBLE TO DELEGATES IN ARRANGING HOTEL ACCOMMODATION, PLACE OF MEETING AND SUCH DETAILS AS WILL INSURE PLEASANT AND SUCCESSFUL CONVENTIONS.

FOR THE TOURIST.

The City of **OTTAWA** and district at once become attractive as a most charming summering and wintering place. Every conceivable requisite is to be found here providing pleasure, recreation, pastime, sport and health. Ottawa hotels are equipped to provide most satisfactory service and the great new Chateau Laurier, positively the finest structure of its kind on the North American Continent, will be open to the public during the summer season of 1911. This hotel, together with the numerous other first class kindred establishments, will add greatly to the pleasure and comfort of particular people and provide luxurious accommodation for the thousands of tourists who visit Ottawa regularly.

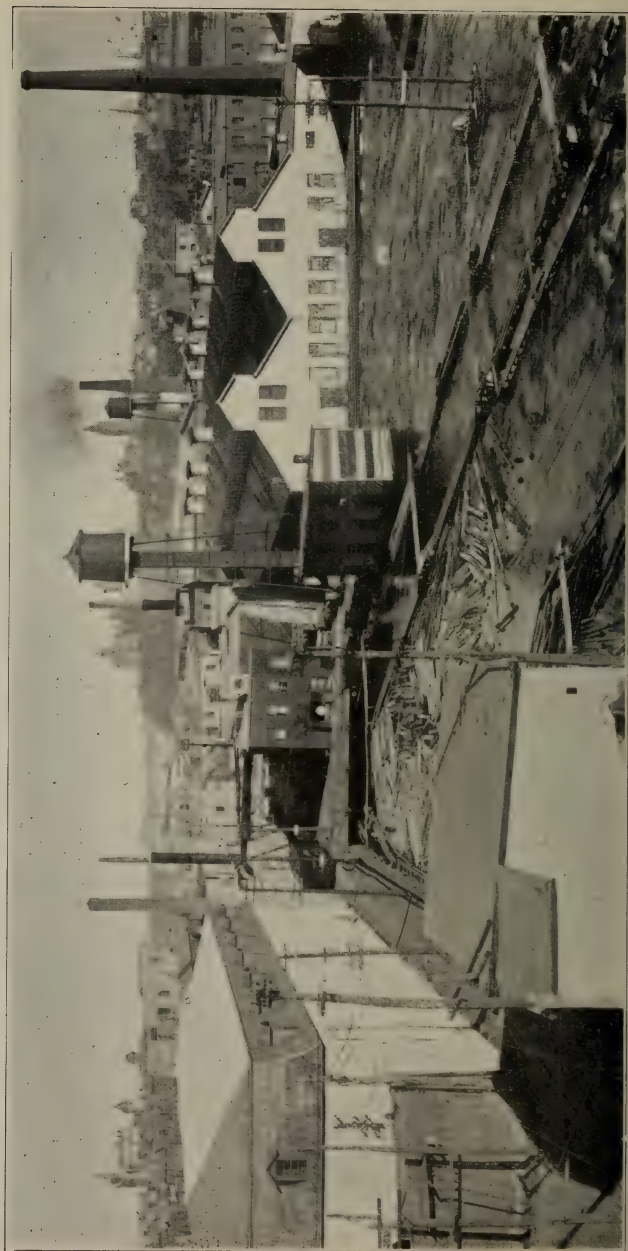

(See time distance map, back cover).

SUMMER RESORTS.

Nearby and of easy access throughout the district are several first class summer resorts, excellently equipped to accommodate the tourist at reasonable cost.

The district of which Ottawa is the centre, is a veritable sportsman's paradise. Here may be had delightful little excursions up and down the Ottawa River and Rideau Lakes; including boating, bathing, fishing and the hunt.

OTTAWA is reached by the Canadian Pacific Railway, Grand Trunk Railway, Canadian Northern Railway, New York Central Railway and Ottawa River and Rideau Lakes Transportation Companies' Steamers.

OTTAWA, CANADA—BIG INDUSTRIES HUM NIGHT AND DAY.

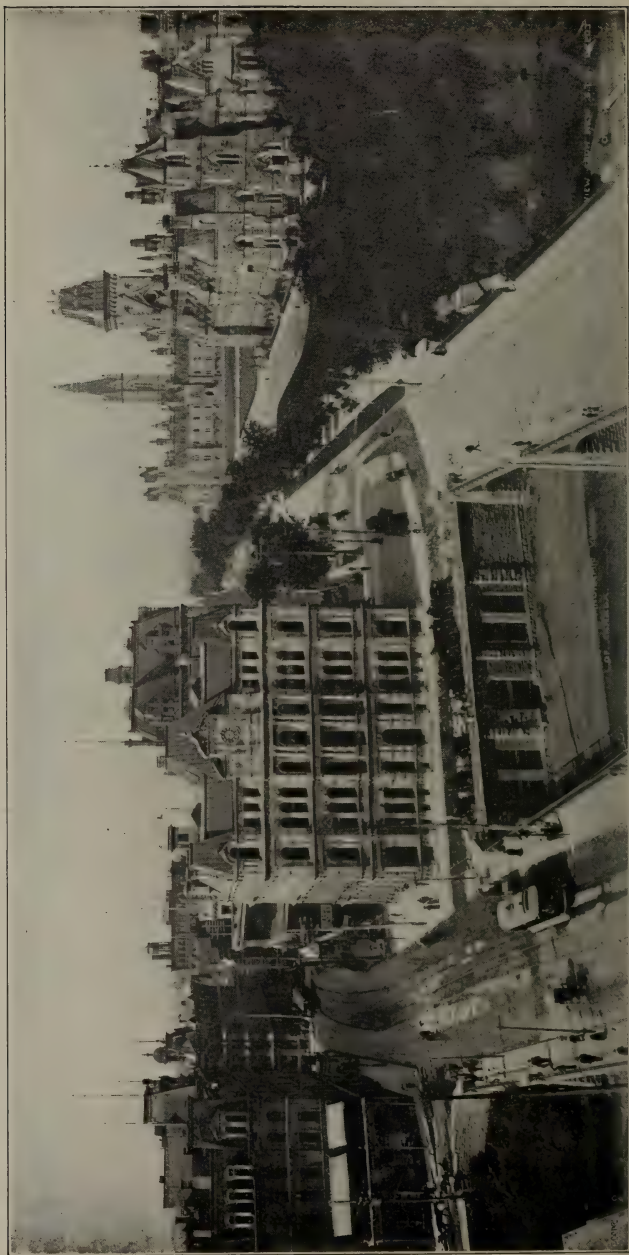

OTTAWA INDUSTRIES.

OTTAWA is rapidly becoming a great manufacturing centre. Twelve new factories—one each thirty days—during 1910 were established, while several important industries are, at the moment, negotiating to locate here.

OTTAWA has at present 168 industries, among which are some of the largest in the world of their particular kind. These 168 industries give employment to about 14,000 people, pay out in wages approximately \$7,978,000 with manufactures for 1910 estimated at \$37,700,000.00.

Following is a list of these factories, with products, demonstrating the important position the City of Ottawa holds as a competitive manufacturing and distributing centre as well as a most beautiful model home city.
